

The 15 Ft Slide creates a large space that is easily filled with a **Component System Grotto**. The columns, backwall and grotto lids are situated as needed to completely fill the area and Gap Rock pieces are used to fill gaps between the Grotto and Slide. Extra boulders are included for accents but rocks to completely hide the backside are extra.

1. 3 Piece Staircase plus small Stepper
2. Component System Mini-Cave:
 - boulders from Loveseat Grotto
 - 3 - 4 Structural columns/walls
 - 3 Grotto lids underside
 - 1 Grotto top - 28" or 42" weir
3. 5 Pc Gap rocks (from TX 2-Step Waterfall)
5. Plants

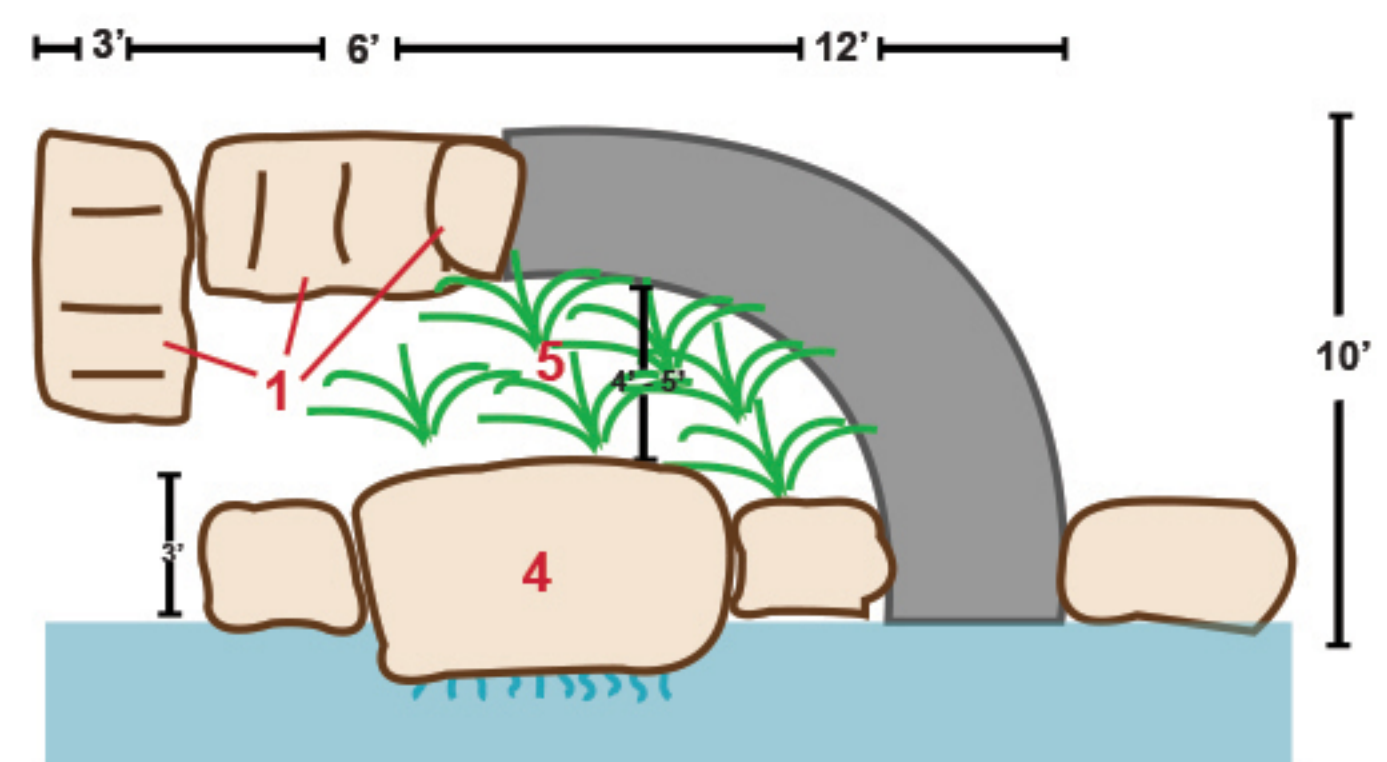

3 Piece Staircase with 1 Stepper, 72" high
